

What is VaporShield®?

VaporShield®

VaporShield® is a specially treated box that contains the release of mercury vapor, should its contents break. This container replaces the box and bag system, speeding the loading process. With VaporShield®, it's easy to safely load, store and ship lamps for recycling.

Features:

- All boxes certified UN-compliant per 49 CFR-Packaging Group II and ISTA® Transit Tested Certified
- Eco-friendly brown craft cardboard material is 100% recyclable
- Bagless box with end caps enables fast, hassle-free setup and loading
